
Chromatographic Study Hydrolysis Feulgen Nuclear Reaction

cytochemical evidence for varied dna complexes in the ... - hydrolysis time minutes 1~ otme 1 changes in feulgen stainability, relative amount of dna, in relation to hydrolysis time, of nuclei from different developmental stages of the frog. for the middle gastrula, the minimum at 10 minutes' hydrolysis time has been tested in three additional series of embryos. **discovery of plasmalogen structure - journal of lipid research** - used to study the latter. a by-product of these studies ... to higher fatty aldehydes on acid hydrolysis. feulgen discovered the fuchsin-sulfurous acid reagent ... studies of plasmalogen structure, see reference 27. 1544 journal of lipid research volume 25, 1984 . **s o m e f . . n e y o - dbu** - chromatographic separation of the lyso- and diacyl phospholipids. ... during the study. the author' 8 appreciation goes to his companions in the ... feulgen and voit (1924), who noted the presence of aldehydogenic compounds in tissue slices treated with fuchsin-sulfurous acid. **observations on the silicic acid chromatography of the ...** - observations on the silicic acid chromatography of the neutral lipides of rat liver, beef liver, and yeast* by edward j ... chromatographic fractionation of simple and complex lipides has received ... tested by a modified feulgen reaction (12), and amino acids were detected by the ninhydrin reagent. ... **composition of secondary amyloid** - feulgen's stain for desoxyribose nucleic acid were negative. aside from the amyloid, some connective tissue ... in each case one 8-hour hydrolysis was performed, and ... the paper chromatographic procedure consisted of partition of the hexosamines in butanol-ethanol-water (4: 1: ... **the .)ol!rnal investigative 08rmatology, vol. 62, no.5 the** - of feulgen stained materials allows measurement of dna contents on an individual cell basis and ... the present study analyzes the effect of these intrafollicular ... hydrolysis of sebaceous triglycerides to free fatty acids. gas liquid chromatographic analysis **histones instead of protamines in terminal germ cells of ...** - a study was carried out, by means of polyacrylamide gel electrophoresis, ... hydrolysis; the time of action, the compo ... chromatographic methods because of technical difficulties due to the scanty material (number of cells and seminal fluid volume). **d,l,-isocitrate - science** - if hydrolysis of the acid is carried out with an excess of barium hydroxide, and the insoluble barium iso- ... mined by chromatographic analysis on dowex 1 by the method of palmer (8) with formic acid as eluent. ... , feulgen (3), methyl green (4). and pyronin (4). under the conditions **transfer of bovine j-blood-group determinant onto ...** - a model system for the study of exchange of carbohydrate units between plasma and erythrocyte membrane. a similar exchange may possibly occur also in ... purified by chromatographic methods whenever necessary. phosphatidic acid was prepared from egg yolk lecithin by the action of phospholipase d [II]. dl-serine was purchased from the ... **by maria wargon biologica american university lebanon ...** - a comparative study of the composition of rna ... feulgen (11) was the first to report the presence of guanine in pancreas rna in excess of that required for a tetranucleotide. hammarsten (5), ... applied their chromatographic procedure to the rna of pig pancreas, iso- **purification and elementary analysis of streptomyces ...** - by chromatographic determination of bases 68 by dna melting point 72 ... feature of the study of phage synthesis. ... intense feulgen reaction with the same will phage and with a staphylococcus phage. this reaction is generally regarded as specific for dna. **the thirty-fifth annual meeting the society for ...** - of feulgen stained materials allows measurement of dna contents on an individual cell basis and ... the present study analyzes the effect of these intrafollicular ... hydrolysis of sebaceous triglycerides to free fatty acids. gas liquid chromatographic analysis **ictor r . illanuea, eroniu matiet 2 and - rd.springer** - study concerning the role of polyamines in the mechanisms and direction of morphogenesis from pollen towards either normal gametophytic or spore- ... could be traced using feulgen-squashes or sections of material fixed at regular intervals. for nicotiana tabacum, anthers were taken for analysis every 48 h during 22 days; in the case ... **ceramide on the inositol phospholipid metabolism (uptake p ...** - 2 ceramide on the inositol phospholipid metabolism (uptake of 32p, 3h-serine and 3h-palmitic acid) and apoptosis-related ... the main goal of this study was to investigate the ... lipid chromatographic standards (pi, pip, pip 2, pe,
